

Wastewater Treatment & Effluent Recycling

There is a "right" treatment process for your application. Our solutions aren't limited to "end-of-pipe" treatment. Beyond this, effluent polishing makes economical sense

in fresh water stressed situation as the higher quality effluent can be reused in various utility requirements - Industrial & Municipal.

Industrial Wastewater Treatment

Neutralization-Precipitation

Clarification / Filtration

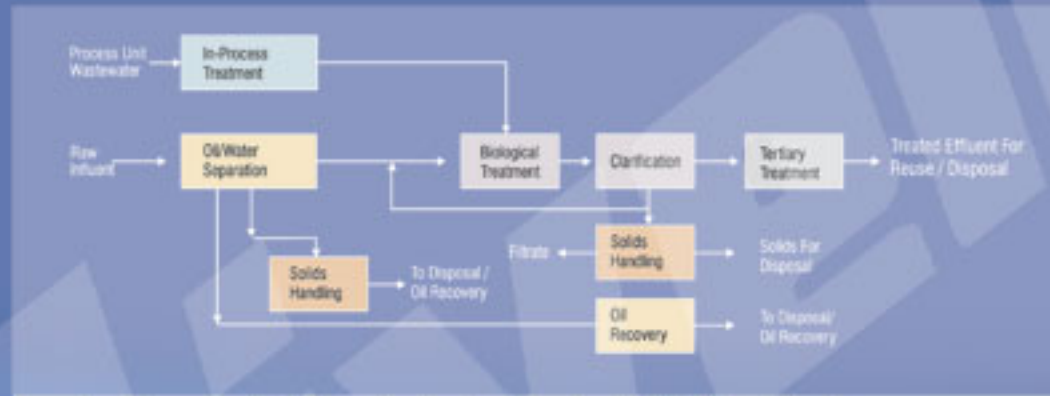

Biological Treatment

Recover / Recycle / Reuse

Solids Management

Instrumentation & Control

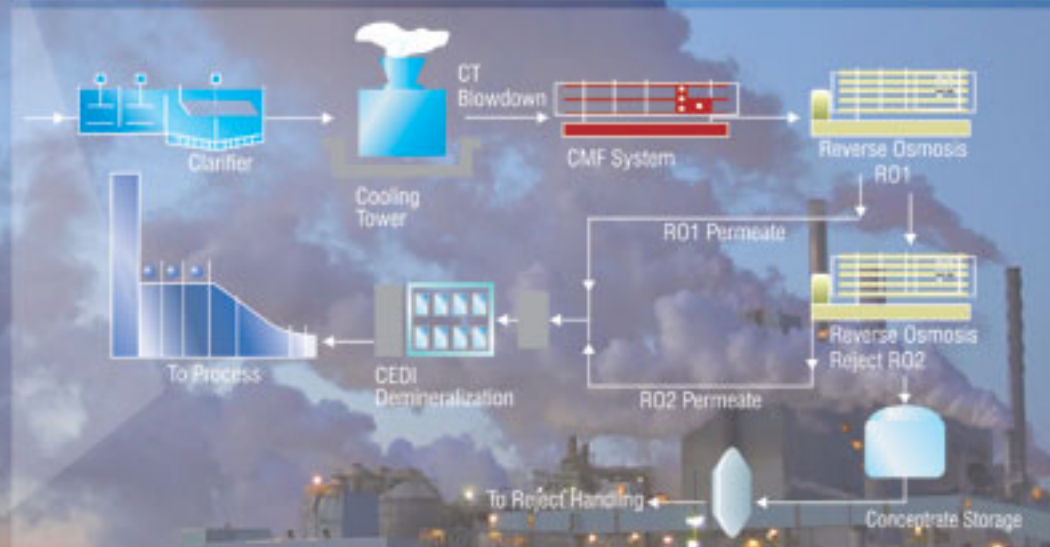

Odor Control
