- Significant improvement in the performance during the period under review is mainly attributed to Sugar Business
- Profitability during the current year is after exceptional charge of ₹ 85.5 crore. Exceptional item during the current year pertain to write-off of incentive recoverable from the State Government under the UP Sugar Industry Promotion Policy 2004 (net of deferred government grant). The Company had challenged the premature termination of the Policy and non-grant of incentives before the Allahabad High Court. The prescribed period of 10 years for incentives under the policy has expired and in view of the continued uncertainty and protracted litigation, the Company, as a prudent measure, has decided to write off such recoverable claims without prejudice to its legal rights to pursue the matter.
- Robust sugar realization prices coupled with low cost of goods sold and increased volume of sugar despatches resulted in better profitability of Sugar Business.
- The performance of Engineering Businesses has been muted.
- The overall debt of the Company as on Mar 31, 2017 is ₹ 1721 crore, which is 3% higher than on March 31, 2016 primarily on account of higher utilization of working capital borrowings to fund much higher inventories.
- The term loan as at Mar 31, 2017 is at ₹ 479 crore (including ₹ 76 crore loans with concessional interest /interest subvention) while the cash credit utilization was at ₹ 1242 crore.
- Sugarcane dues outstanding as at 31.03.2017 are ₹ 125 crore as against ₹ 325 crore as on 31.03.2016. All sugarcane dues of Sugar Season 2016-17 stands paid as on date.

Commenting on the Company's financial performance, Mr. Dhruv M. Sawhney, Chairman and Managing Director, Triveni Engineering & Industries Ltd, said:

"The Company has achieved many milestones during the year under review and recorded one of the best performances. The continuous focus on cane development program, improving operational efficiencies and cost control measures being initiated and pursued rigorously has paid good dividends — apart from record sugarcane crush and sugar production with the recoveries have increased y-o-y by 25 basis points. The average recoveries of the Company are higher than the state average by around 50 basis points. Improved operational performance, low cost of production coupled with stable sugar pricing has resulted in record profitability for the Sugar business.

As per the estimates, sugar production in SS 2016-17 is much lower at 20.1 million tonnes. The production may be equivalent to the consumption next year as is indicated by initial estimates of sugarcane planting in the swing states of Maharashtra and Karnataka, thereby avoiding any appreciable accretion to sugar inventory. It may result in maintaining stable sugar prices at least till the commencement of the SS 2017-18. We earnestly hope that any further imports are permitted only under compelling circumstances. The new state Government in UP has raised hopes of uniform sugarcane pricing policy, with linkage with sugar prices and If it is done in a rational manner, it will be a game changer in UP and spur growth and investments.

The performance of the Engineering business has remained muted due to subdued order booking in both the Gears and Water businesses. This is due to sluggish demand and overall subdued economic activities in the domestic market. The Gears business achieved breakthrough and got one order from Indian Navy that should help in further business growth in the coming years. The total outstanding order book as on Mar 31, 2017 stood at ₹658 crore. The domestic market and addressable global market for the Engineering businesses is expected to turnaround in the second half of FY 18 which should help the businesses to achieve better profitability and turnover going forward.

#### **Industry Scenario**

- As per the estimates, the sugar production will decline by 19% to 20.1 million tonnes in the (Sugar Season) SS 2016-17. During the current season, Uttar Pradesh has surpassed Maharashtra in sugar production and has produced ~ 8.72 million tonnes till beginning of May 2017. Maharashtra has produced ~ 4.25 million tonnes of sugar in SS 2016-17 which is lower by ~ 49% as compared to SS 2015-16. Karnataka has produced 2.03 million tonnes of sugar in SS 2016-17 as against 3.98 million tonnes of production of last year, a decline of ~49%.
- Considering consumption of 23.8 million tonnes and our estimates of 20.1 million tonnes of sugar production and import of 0.5 million tonnes, the estimated sugar inventory at the end of SS 16-17 would be around 4.5 million tonnes, which is lower than normal stocks equivalent to 2.5 months consumption.
- The Central Government has taken several measures to curb rise in sugar prices. The Government has allowed import of 500,000 tonnes raw sugar at zero duty. The cabinet last month extended the stock holding limit of 500 tonnes and turnover limit of 30 days for sugar traders in the country by another six months until October 28, 2017 to check prices within current ₹ 42-44 per kg. The stock limit in West Bengal is 1000 tonnes.
- Sugar prices have been stable during the quarter with the average NCDEX spot prices at Muzaffarnagar at around ₹ 39.16 kg which has been an increase of ~19% year on year.
- The sugarcane planting in the country has increased as compared to last year as per the
  initial estimates. The acreage under sugarcane has increased by 30-40% in Maharashtra and
  North Karnataka; declined by 35% in Tamil Nadu and south Karnataka while in UP it increased
  by approx. 10%, as per initial estimates.
- The current sugar prices are likely to hold till the commencement of the next sugar season.

#### International sugar scenario

- The global sugar output is expected to reach 190.3 million tonnes compared to 176.9 million tonnes in 2016/17, which will lead to a surplus of 2.8 million tonnes in the global sugar market after two years of deficits mainly due to estimated increase in sugar production in the European Union, India and Thailand.
- Brazil's center-south region is estimated to produce 35.9 million tonnes in the 2017/18 as against 35.6 million tonnes in 2016/17.
- The sugar prices has elevated to highest levels at above 23 cents per pound later last year due to the global sugar supply deficits of the last two years but these values have been

falling since and touched a low of 15.2 cents per pound on 27<sup>th</sup> April 2017, as the market already priced in a likely rebound in global production in 2017/18.

## **Co-generation business**

Triveni's co-generation plants at Khatauli (two units) and Deoband supplies (exports) surplus power to the state grid after meeting captive requirements.

## **Performance**

| PBIT (₹ crore)                  | 36.0     | 44.7    | 69.4   | 78.0   |

- The operating efficiency of the plants continued to be excellent. The profitability for the current financial year has been low on account of higher raw material cost.
- Income of ₹ 4.49 crore has been realised during the current quarter and ₹ 8.24 crore during
   FY 17 from the sale of Renewable Energy Certificates (RECs) in respect of Khatauli and
   Deoband units.

## **Distillery business**

Triveni's distillery produces Extra Neutral Alcohol (ENA), Rectified Spirit (RS), Special Denatured Spirit (SDS), and Ethanol.

| PBIT (₹ crore)            | 17.6     | 13.2     | 46.6  | 43.7  |

- The sales volume and net sales realization have been slightly lower than the previous corresponding period under review. This was primarily due to the lower offtake of ethanol.
- The share of Ethanol sales in FY 17 is 72% of the total sales volume, as against 87% in FY 16.
- With the permission from MoEFCC, the distillery is now expected to operate for 330 days annually, which translates into about 20% higher capacity.

#### High speed gears and gearboxes business

This business manufactures high-speed gears and gearboxes upto 70MW capacity with speeds of 70,000 rpm. Triveni is the country's largest one-stop solutions provider in this sector with over 60% overall market share.

#### <u>Performance</u>

|                         | Q4 FY 17 | Q4 FY 16 | FY 17 | FY 16 |
|-------------------------|----------|----------|-------|-------|
| Gross Revenue (₹ crore) | 38.3     | 51.2     | 92.2  | 119.9 |
| PBIT (₹ crore)          | 10.4     | 15.9     | 18.0  | 29.2  |

- The muted economic outlook has resulted in slowdown in the off-take from customers.
- Overall the market is still impacted by the slowdown in the capital goods segment with significantly lower OEM off-take year on year.
- The share of aftermarket was at ₹ 36.34 crore which is an increase of 17% in FY 17 as compared to FY 16.
- Owing to sluggish business conditions, during FY 17, customers had significantly pruned down fresh investments and maintenance spend resulting into limited demand for new capital goods as well as replacement markets which resulted in lower order booking / offtake in all the segments.
- The business started getting visibility in terms of new order from Indian Navy.
- The order in-take during FY 17 was ₹ 102.05 crore and the outstanding order book as on 31<sup>st</sup> Mar 2017 stood at ₹ 57.59 crore.

#### **Outlook**

 Due to slow revival of economic activity, capex plans in various industries are put on hold and therefore the order finalisation for new gearboxes as well as the replacement; retrofitting and refurbishment markets are being delayed.

- Once the capital goods industry is revived, the order intake should improve considerably
  as this business has a strong market leadership in the country and also expanding in
  many overseas markets.
- The Company is exploring new product & geographies to expand so as to improve its turnover and profitability.
- Domestic Market is expected to improve slowly in the Steam Turbine segment both for domestic and overseas projects in the next financial year for Captive Power plants, Cogeneration plants and other renewable power plants.
- The Government plans to upgrade/revamp refineries and fertilizers which are likely to
  result in orders for critical equipment like Gas Turbines, Compressors and pumps
  application. Many new brownfield and greenfield projects including revamp, expansion,
  upgrades are expected to come up for implementation in FY 18.

## Water business

This business is focused on providing world-class solutions in water and waste-water treatment to customers in industrial and municipal segments. This business is gaining faster momentum and is getting recognition in a high potential market as a supplier of superior quality products and services at competitive costs.

  has secured orders of ₹ 93 crore in May 2017 and is well positioned in many on—going
  bids.

   256.6 crore towards Operations and Maintenance contracts for a longer period of time.
- The Company has participated in various tenders and some of such enquiries are in advance stages of finalization.

#### **Outlook**

- The turnover should show a good growth going forward based on the execution of the order book.
- The Company has participated in large number of tenders which are in various stages of
  finalisation. The Company is expecting significant order booking in FY 18 which will
  ensure growth in turnover in the coming years. The Company is also exploring export
  opportunities to expand its business thereby aim to improve its performance.
- The Company continues to successfully leverage its existing engineering relationships with industrial sector customers.
- The uncertainty in order finalisation still lingers on but with various policy initiatives of the Central Government and focus on the treatment of waste water and provision of adequate water to the citizens of India; we believe that the order finalisation in this business will gain momentum in the coming quarters.

### Notes

- 1. In view of the seasonal nature of company's sugar business, the performance results may vary from quarter to quarter.
- 2. The Company has adopted Indian Accounting Standards ("Ind AS") from April 1, 2016 (transition date being April 1, 2015) and accordingly, these financial results have been prepared in accordance with Companies (Indian Accounting Standard) Rules, 2015 as prescribed under Section 133 of the Companies Act, 2013 read with the relevant rules issued thereunder and the other accounting principles generally accepted in India.
- 3. Exceptional items during the current year pertain to write-off of incentives recoverable from the State Government of Uttar Pradesh (UP) under the U.P. Sugar Industry Promotion Policy 2004 (net of deferred Government Grant). The Company had challenged the premature termination of the Policy and non-grant of incentives before the Allahabad High Court. The prescribed period of 10 years for incentives under the policy has expired and in view of continued uncertainty and protracted litigation, the Company, as a prudent measure, has decided to write off such recoverable claims without prejudice to its legal rights to pursue the matter.
- 4. The figures for the last quarter are the balancing figures between the audited figures in respect of the full financial year and published year to date figures upto the third quarter of the financial year.
- 5. The adoption of Ind AS has necessitated changes in the accounting, recognition and measurement criteria of various assets, liabilities and items of income and expenditure. The reconciliation of financial results, for the quarter and year ended March 31, 2016, as reported under previous GAAP with those restated as per Ind AS, is as under:

#### **Notes**

- 1. In view of the seasonal nature of company's sugar business, the performance results may vary from quarter to quarter.
- 2. The Company has adopted Indian Accounting Standards ("Ind AS") from April 1, 2016 (transition date being April 1, 2015) and accordingly, these financial results have been prepared in accordance with Companies (Indian Accounting Standard) Rules, 2015 as prescribed under Section 133 of the Companies Act, 2013 read with the relevant rules issued thereunder and the other accounting principles generally accepted in India.
- 3. Exceptional items during the current year pertain to write-off of incentives recoverable from the State Government of Uttar Pradesh (UP) under the U.P. Sugar Industry Promotion Policy 2004 (net of deferred Government Grant). The Company had challenged the premature termination of the Policy and non-grant of incentives before the Allahabad High Court. The prescribed period of 10 years for incentives under the policy has expired and in view of continued uncertainty and protracted litigation, the Company, as a prudent measure, has decided to write off such recoverable claims without prejudice to its legal rights to pursue the matter.
- 4. The figures for the last quarter are the balancing figures between the audited figures in respect of the full financial year and published year to date figures upto the third quarter of the financial year.
- 5. The adoption of Ind AS has necessitated changes in the accounting, recognition and measurement criteria of various assets, liabilities and items of income and expenditure. The reconciliation of financial results, for the quarter and year ended March 31, 2016, as reported under previous GAAP with those restated as per Ind AS, is as under:
