Notes to the Standalone Audited Financial Results for the Quarter and Year ended March 31, 2019

1. The above results have been prepared in accordance with the principles and procedures of the Indian Accounting Standards ('Ind AS') notified section 133 of the Companies Act, 2013 [Companies (Indian Accounting Standards) Rules, 2015 (as amended)].
2. In view of the seasonality of the Sugar Business, the performance results may vary from quarter to quarter.
3. Goods and Services Tax ("GST") has been implemented with effect from July 1, 2017 and therefore, revenue from operations for the period thereafter are net of GST. Revenue from operations and expenses for the year ended March 31, 2018, being inclusive of excise duty till June 30, 2017, are not comparable with corresponding figures for the year ended March 31, 2019.
4. Effective April 1, 2018, the Company has adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative effect method. The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information is not restated. The adoption of the standard did not have any material impact on the financial results of the Company.
5. In line with the generally adopted practice in the sugar industry, the Company had, for the purpose of interim financial statements, revised the treatment with respect to deferment of certain off season expenses during current year. However, such expenses formed part of the relevant cost of goods produced during the crushing season 2018-19. The revision in the treatment in the interim financial statements has the effect of increasing the profitability by ₹ 7540 lakhs for the quarter ended March 31, 2019. The change in treatment, however, has no effect on annual profitability of the Company.
6. During the current year, the Company has recognised ₹ 5161 lakhs towards financial assistance received under the schemes announced by the Government of U.P. and Government of India to liquidate the arrears of cane dues pertaining to crushing season 2017-18. Out of the said amount, ₹ 4206 lakhs, pertaining to financial year 2017-18, has been depicted as other income and balance amount of ₹ 955 lakhs, pertaining to financial year 2018-19, has been deducted from the cost of material consumed.
7. Loss of ₹ 8125 lakhs has been recognised during the current year, pursuant to the Minimum Indicative Export Quotas obligation for sugar season 2018-19 notified by the Government of India, towards sugar exported, export expenses incurred/contracted and write down of inventory of sugar produced for export.
8. Exceptional item of ₹ 2034.85 lakhs represents profit from disposal of investment in equity shares of Triveni Turbine Limited under buyback scheme.
9. The figures for the last quarter are the balancing figures between the audited figures in respect of the full financial year and the published unaudited year to date figures upto the third quarter of the financial year.
10. The figures of the previous year under various heads have been regrouped to the extent necessary.
11. The above audited standalone financial results of the Company for the quarter and year ended March 31, 2019 have been reviewed and recommended for adoption by the Audit Committee and approved by the Board of Directors of the Company at their respective meetings held on May 21, 2019.

Notes to the Consolidated Audited Financial Results for the Quarter and Year ended March 31, 2019

1. The above results have been prepared in accordance with the principles and procedures of the Indian Accounting Standards ('Ind AS') notified section 133 of the Companies Act, 2013 [Companies (Indian Accounting Standards) Rules, 2015 (as amended)].
2. In view of the seasonality of the Sugar Business, the performance results may vary from quarter to quarter.
3. Goods and Services Tax ("GST") has been implemented with effect from July 1, 2017 and therefore, revenue from operations for the period thereafter are net of GST. Revenue from operations and expenses for the year ended March 31, 2018, being inclusive of excise duty till June 30, 2017, are not comparable with corresponding figures for the year ended March 31, 2019.
4. Effective April 1, 2018, the Company has adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative effect method. The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information is not restated. The adoption of the standard did not have any material impact on the financial results of the Company.
5. In line with the generally adopted practice in the sugar industry, the Company had, for the purpose of interim financial statements, revised the treatment with respect to deferment of certain off season expenses during current year. However, such expenses formed part of the relevant cost of goods produced during the crushing season 2018-19. The revision in the treatment in the interim financial statements has the effect of increasing the profitability by ₹ 7540 lakhs for the quarter ended March 31, 2019. The change in treatment, however, has no effect on annual profitability of the Company.
6. During the current year, the Company has recognised ₹ 5161 lakhs towards financial assistance received under the schemes announced by the Government of U.P. and Government of India to liquidate the arrears of cane dues pertaining to crushing season 2017-18. Out of the said amount, ₹ 4206 lakhs, pertaining to financial year 2017-18, has been depicted as other income and balance amount of ₹ 955 lakhs, pertaining to financial year 2018-19, has been deducted from the cost of material consumed.
7. Loss of ₹ 8125 lakhs has been recognised during the current year, pursuant to the Minimum Indicative Export Quotas obligation for sugar season 2018-19 notified by the Government of India, towards sugar exported, export expenses incurred/contracted and write down of inventory of sugar produced for export.
